PROFILE

I am a curious and motivated person who enjoys exploring technology, solving problems, and turning ideas into practical solutions. I enjoy learning through hands-on experience, whether by building projects, experimenting with new tools, or working through challenging problems. I am continuously working on improving my technical and analytical skills while developing a better understanding of how technology can be applied to real-world situations. I value consistency, adaptability, teamwork, and continuous learning, and I am always open to new challenges and opportunities to grow.

EDUCATION

Bachelor of Information Systems (S1 Sistem Informasi)

Aug 2025 - Present

Hasanuddin University, Makassar

Information Systems student at Hasanuddin University with an interest in software development, database management, Artificial Intelligence, Data Science, and Cloud Computing. Currently developing programming and problem-solving skills through academic projects and hands-on practice using Java, Python, SQL, and web technologies. Familiar with object-oriented programming, relational databases, algorithm design, and basic computer networking. Continuously learning new technologies and building practical projects to strengthen technical and analytical skills.
